Statutes and Rules of the Master Masons and Carpenters

These are the statutes and rules of the Society of the Master Masons and Carpenters, made in honor of God, our Lord Jesus Christ, the blessed Virgin Mary and all saints, and in honor of the good fortune of the town of Bologna and the Trade Union of said Masters, with respect and in honor of the Potentate (potestatis) (2) and Captain of Bologna, who governs or will govern in future, and with respect to the statutes and rules of the society of Bologna, in existence or to be made. And may all following statutes from now on be applied, to be from today, the year 1248, the sixth indiction (3), the eighth day of August.

1. - Oath of the above mentioned Masters. I, Master Carpenter and Mason, who is or will belong to the Union of said Masters, I swear in honor of our Lord Jesus Christ, the Blessed Virgin Mary, and all saints; and in honor of the Potentate and Captain, who is now in charge or who will be in charge in future, and in honor of the good fortune of the town of Bologna and all those, who will govern the town of Bologna, that I will conform myself and obey all and each of the orders given to me by the Polier (4) (foreman) and the Officers of the Trade Union of Masters Carpenters and Masons, or any of them, in honor and the good fortune of the Union and to preserve and maintain the Union and the members of the Union in good condition and to guard and maintain the statutes and rules of the Union as they are now or will be imposed in future, with respect to all statutes and rules of the town of Bologna, as it is stated that I will be bound by my oath to adhere to them at my entry to the Union and that I will be disengaged after my departure.

And if I will be called to the board of the Union, I will not refuse but I will accept the command and I will manage with care and will lead and preserve the Union and the members of the Union. And I will distribute the charges with equity between the members of the Union according to that which I and the board of Masters will judge convenient. And I will give and cause to give fines, prescribed by the statutes of the Union and when statutory rules are missing, I will impose sanctions according to the will of the board.

And all sanctions I will impose for any act, whatever it may be, I will have noted down in a book and I will hand and give it to the Polier of the Union. And the sanctions, the funds, and wages of the Union, the statutes, and all that is in his possession with regard to the funds of the Union and all writings and correspondence referring to the Union, the Polier shall remit at the moment the statutes prescribe and give to the Polier, who will succeed him in the assembly of the Union, under penalty of a fine of 20 Bologna sous. And the accountants are bound to inspect them and pronounce a sanction against the failing Polier unless they are prevented by a unanimous decision of the board of the Union or by majority of votes, or due to a fair reason. And if I will impose, as an Officer, a contribution for the expenses of the Union, I will first explain the reason to the board, and it will be imposed as the board will decide unanimously or by majority of votes.

2. - About insulting words against the Officers or the Polier. We enact and order: that if someone of the Union says insulting words to the Officers or the Polier, or against the notary, or if he accuses them of lies, he will be punished with 10 Bologna sous.

3. - About the penalties to those, who did not come, if they were summoned to a determined place. We enact and order: that if someone is summoned by the Officers, the Polier or the Nuncio (5) to come to a place, where the Union assembles, he shall have to come each time and as often as he will be summoned or ordered, on penalty of a fine of six deniers (6). We enact and order: that each shall come to the place, where the Union assembles, each time and as often as that will be summoned and ordered by the Officers or the Polier or the Nuncio on penalty of a fine of six Bologna deniers.

And even if it is not required, each will be obliged to come the one but last Sunday of the month, without summons, carefully, without lie or deceit. That he is not only bound to it by his oath, but that he will risk the above penalty, even if he was not summoned to come. And if he comes to the place where the Union assembles and he leaves without permission of the Polier or Officers, he shall have to pay as a fine 12 Bologna deniers.

Except in two cases: if he had a real hindrance, or if he was ill, or outside the town, or serving the town of Bologna, in which case he may, as in the other cases, mention his oath of obligatory service. And if he excuses himself falsely, he will be punished with 12 deniers.

4. - About the election of Officers and the Polier and about the assemblies of the Union. We enact and order: that the Union of the Masters Masons and Carpenters shall have eight Officers, and also two (Polier) foremen, i.e. for each Trade of the Union; and they shall be equally divided over the quarters, and elected by lists in the assembly of the Union, so that in each quarter of the town there are two Officers: i.e. one of each Trade.

And that the Officers, with the Polier, stay in function for six months and no more. And that they shall call the Union to assemble and meet on the second Sunday of the month, on penalty of a fine of three Bologna sous for each time they infringe, unless they should be withheld in a real force majeure.

We add that the son of a Master of the Union shall not and cannot be enlisted on the election-lists if he is not at least 14 years old. And his father shall not have him enter the Union before that time, and the son shall not be received into the society before that time. And nobody shall take an apprentice, who is not at least 12 years old on penalty of a fine of 20 sous, and the contract thus made shall be without value.

5. - That nobody can be elected, who is his son or father. We enact and order: that no Officer or Polier can be elected who is the brother or son of a voting member and that the vote given on this subject has no value.

6. - That the Masters obey the Officers and Polier. We enact and order: that if a member of the Union owes to another Master a certain sum of money because of the Trade, or if a Master has some problem with another one because of the mentioned Trade, then the Masters having this

quarrel have to obey the orders, which the Officers or the Masters Mason and Carpenter will impose for a settlement, on penalty of a fine of 10 Bologna sous.

7. - How and in what manner the Masters will be received in the Union, and how much they owe for their reception. We enact and order: that all Masters, who wish to be received in the Union of the Masters Masons and Carpenters shall pay to the Union 10 Bologna sous if they belong to the town or region of Bologna; and if they do not belong to the city or region of Bologna, they will pay 20 Bologna sous. And that the Officers do realise all of their cares so that the Masters not belonging to the Union will be received obligatorily.

And that this prescript is irrevocable, that nobody can in any manner be exempted unless at least one tenth of the Union decides or unless he is a son of a Master, who may be received into the Union without payment. And if the Polier or an Officer supports the board or assembly of the Union, the request of somebody wishing to spare the 10 or 20 Bologna sous to be given to the Union, shall be fined with 10 Bologna sous. And if somebody of the Union, having a seat in the assembly or the board, rises to say that somebody should be spared paying the 10 or 20 Bologna sous, he will be punished with five Bologna sous.

And if a Master has one or more sons, who know the Trade of the mentioned Masters, or who stayed during two years to learn the mentioned Trades with his father, then this father shall have him received into the Union without reception, paying himself to the Union as is mentioned above, on penalty of a fine of 20 sous. And once this was paid, he still has to have him received into the Union.

And that the Officers and the Polier shall recover the sums due by those, who have been received into the Union, and the four deniers, due for the masses, and the sanctions pronounced during their period of office. And that they shall have them take their oath in the Union.

And that the Polier shall receive from the Master, who has been received into the Union a valid guarantee, that within a month after the reception into the Union, he will pay 10 sous, when he belongs to the town or region of Bologna, as said before, and when being from another region 20 Bologna sous. And if the Polier and the Officers do not recover the sums, then they have to pay to the Union from their own pocket and give a sufficient compensation in money or wages, that the Union be safeguarded, and this eight days after the end of the delay of a month.

And that the accountants have to control everything as said before and, if this is not observed, to pronounce the sanctions mentioned by the statutes of the Union. We add that whoever will be received into the Union shall pay as a reception fee to the Union 20 Bologna sous.

We order this for those who, counting from today, will be employed in the future for learning the Trade and that this will be valid for the future from now on, 1254, twelfth indiction, eighth day of March. As far as they are concerned, who will have no Master for learning the Trade, they will pay as a reception fee to the Union three Bologna pounds.

8. - That no Master shall harm another Master in his work. We enact and order: that no Master Mason and Carpenter shall harm another Master of the Union of Masters by accepting a work at

a fixed price, after having assured him and promised formally, where he did receive this work in a different manner.

Except that, if a Master turned up before the work was formally promised and assured to him and he would ask a part, he then shall give him a part, if the other wishes so. But if an agreement was arrived at on the subject of the work, he is not obliged to give him a part if he does not wish this. And the one infringing has to pay as a fine three Bologna pounds for each time he infringes.

And the Officers have to impose the fines the statutes do prescribe within a month after the infringement becomes evident and clear to them, with regard to the statutes and rules of the Bologna community. And that the fines and penalties have to be delivered to the assembly of the Union and remain there.

9. - About the accounts the Polier has to render and about the charge he has to fulfil. We enact and order: that the Polier of the Union of Masters shall render the account to the accountants within a month after ending his charge, unless he has the authorization from the new Officers and the board of the Union, or that he failed due to a real case of force majeure. And that the Polier shall answer for all entries and expenses received and paid during his period.

And that all Masters, who were received into the Union during his period, will be entered into a special book for this purpose, so that it is known whether they paid or not. And we order: that all letters shall remain in the hands of the Polier. And all letters referring to the Union and everything referring to the properties of the Union the Polier shall give and transfer in writing to the assembly of the Union to the following Polier, so that the funds of the Union can in no manner become the object of fraud. And if the Polier, with a fraudulent intention, left out certain of these prescriptions and did not comply with them, he shall be punished with 20 Bologna sous.

And if he has kept funds of the Union fraudulently with himself, he shall restitute the double to the Union. Besides, the old Polier shall, after leaving his charge, absolutely be obliged to give and transfer to the new Polier all funds of the Union, as well as letters relating to the Union and the money of this society, on the first or the second Sunday of the month. And the new Polier shall not extend this term for the old Polier beyond 15 days. And that this prescription is irrevocable. And if one of the Poliers would infringe, he shall be punished with 20 Bologna sous, to be paid to the society.

10. - About the election of the accountants. We enact and order: that the accountants shall be elected at the same time as the Officers, and that there shall be two of them, i.e. one for each Trade. That the accountants shall inspect carefully the Polier and the Officers in function at the same time as the Polier. And if they discover that the Polier and the Officers acted wrongly in the execution of their charge and that they committed fraud or deceit, they shall be condemned to restitute the double of the funds discovered of being withheld.

Besides, they are condemned to restitute the equivalent of the pay they received. And that they are obliged to act thus and to inspect and condemn or give acquit within a month after the function of Polier and Officers ceased. And whether they condemn or give acquit they shall do this in writing to the assembly of the Union.

And if the accountants infringe and do not observe these prescriptions, each of them shall be punished with 10 sous and they will be dismissed from their function, unless in a real case of force majeure, or when they received authorization from the Officers and the board of the Union.

11. - About the transcription of the modifications by the board. In order to ever prevent any dispute between the members of the Union, we enact and order that all changes of the Union of the Masters Masons and Carpenters, related to the practice of the Trade, shall be inserted in a special book, and that the Polier and the Officers shall have this done, on penalty of a fine of five Bologna sous.

12. - The Polier and the Officers shall account for their charge only once and no more. We enact and order: that the Polier and the Officers of the Union shall account only once for all expenses and receipts. And after they have once been controlled on the account they shall be no more called for a further account, unless they have been denounced or accused for having committed deceit or fraud, or for having illegally withheld money from the community and Union; in which case, whoever may have accused them shall be heard.

And those who have been controlled once shall not be controlled once more. And this rule applies for the past as well as for the future.

13. - About the orders to be given by the Officers and the Polier. We enact and order: that all orders the Officers or the Polier, or one of them, may give with regard to money or other matters regarding the Trade, that a Master has to give to another Master or has to have them given, these orders shall be given and ordered within 10 days.

And if a Master, to whom an order was given within 10 days, does not execute them, the Officers and the Polier shall then have to give, within five days after the 10 days, a mortgage to the creditor on the properties of his debtor, so that he shall be paid completely for that owned to him and his expenses. And that besides he shall be punished with five Bologna sous, if the Officers judge this fair. And that this is irrevocable.

And the one who owes money to another Master or another person, who has been called upon or summoned by the Officers or by the Nuncio or clergymen of the Union, and who did not appear before the Officers or the Polier, he shall be punished each time with 12 Bologna sous if he is traced. If he cannot be traced and was summoned for a second time, he shall be punished again for the same amount.

14. - About a Master hindering another Master in his work. We enact and order: that, if a Master has work at a fixed price, or per day, or in any other manner, and he wishes another Master to have the work performed and cooperate with him, then the Master who hindered the other Master shall give him satisfaction as far as the price is concerned, unless he is not an Officer or Polier of the Union, who gave this Master work for the community of Bologna. And the one who infringes shall be punished as the Officers will determine.

15. - How much the Masters being Officers and the Polier have to receive as their payment. We enact and order: that the Officers and the Polier, who are in future in function, shall receive as

And if they did not recover them within the prescribed time, they shall have to pay from their own money to the Union as much in total as they did not recover. And that the Officers and the Polier shall be excluded from any charge during a year after they finished their charge.

We enact and order: that the Officers and Poliers, who will be in charge in the future, shall collect wages from a Master as a remuneration, sanctions or other reasons and charge him with all expenses they make recurring to the clergymen of the Bologna community or otherwise to collect them, so that the Union does not suffer.

And the Officers or the Polier who made expenses to this end make them at their own account, unless they made these expenses according to the wish of the Union or the board. And if the one who has to pay money for this does not allow the Nuncio of the Union to receive this wage from him, he shall be punished with three Bologna sous for each time he infringes.
